

# eVTOL Mixed-Reality Series X

## flight simulator for promotion and professional pilot training

Providing the perfect solution for your usecase

F.A.S.T.-Groups all-new eVTOL Mixed-Reality Series X Flight Simulator combines highest standards with latest technologies in order to provide a highly realistic flying experience. In order to ensure the highest flexibility, we designed our MR Series X to be **mobile and easy to ship and install.**

As our customer, you may choose between a **base model**, an **upgraded version** for the initial pilot training and a **type-specific** simulator. By using our base model to implement flight model data of different kinds of eVTOLs, we ensure the usage of our MR Series X for either promotion, initial pilot training or type-ratings. As certification details are yet to be discussed, we will be happy to discuss further details when times comes.

✓ Providing a highly realistic flying experience

✓ Using latest Mixed-Reality technologies

✓ Affordable in purchase and in operation

✓ Option to future certification and further upgrades, type specific

## Our product

The heart of our eVTOL MR Series X is its **Mixed-Reality** technology in combination with our unique **motion platform**. Due to its compact design, it is not only easy to ship but also easy to install and maintain.

If you prefer a lease over a purchase, we provide a **rental service** for your event. We will provide the **shipping, installation and service** to make sure you have a pleasant experience. For further information, do not hesitate to contact our team.

We will be happy to discuss the perfect training solution for you.

- ✓ Motion-based flight simulator with option to certification
- ✓ Including software and Mixed-Reality glasses
- ✓ Easy to ship and install everywhere
- ✓ Either to rent or for purchase
- ✓ Providing a solid base for future upgrades

# F.A.S.T.-Group

## About Us

### Who we are and what we stand for

As F.A.S.T.-Group we stand for innovation and progress in flight simulation. Through our team, which brings a variety of core competencies, we are able to develop training solutions that are tailored to your wishes.

Naturally, we always attach great importance to the highest standards and quality in all our services.

### eVTOL MR Series X

- ✓ Option A: **Demonstrator Model**  
We provide flight model and hardware
- ✓ Option B: **Generic Model**  
Generic flight model with certification
- ✓ Option C: **Type-Specific Model**  
Specific eVTOL model and future certification
